

certified retrofits

OGP SmartScope Part Number 900101

QVS Certified Retrofit Systems

QVS replaces your system electronics with a state-of-the-art QVI Controller and multi-featured x-metrology™ software. Wherever possible, we use existing mechanical and optical parts. You get 21st century video measurement at a fraction of the cost of a new system. And our retrofits are performed at your facility, minimizing downtime and production loss.

what you get

A QVS certified retrofit of a benchtop OGP® SmartScope includes:

- ▶▶ New interface board, using existing SmartScope wiring, integrated with system
- ▶▶ QVI Controller electronics, integrated with system
- ▶▶ 17-inch color monitor, keyboard, and mouse
- ▶▶ Gage-X™ metrology software for manual systems, or Basic-X™ for motorized systems, installed
- ▶▶ One-year parts/labor warranty on QVS components
- ▶▶ A2LA certified calibration

benefits

- ▶▶ New ergonomic work environment, with all controls close at hand
- ▶▶ Rapid digital signal processing for increased throughput
- ▶▶ Powerful yet easy-to-use QVI x-metrology software for unparalleled measurement capability
- ▶▶ Latest edge detection and image analysis algorithms
- ▶▶ A software platform common to all QVI retrofits, regardless of original equipment manufacturer
